

euro-block
printed circuit terminal blocks

Your business, our connectors!

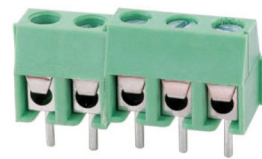

25 years of experience in the distribution of electronic components and 10 years of experience in the manufacturing of pcb terminal blocks. This is “euro-block”.

We are a young company managed by experienced people who aim to offer the best mix between being a manufacturer and a distributor.

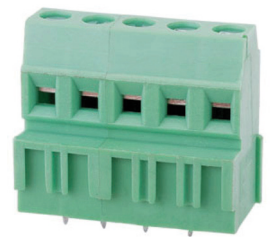

Euro-block pcb terminal blocks and connectors are designed and manufactured in accordance with major International standards. Conform to all IEC directives. In particular to the 2002/95/CE directive (RoHS) and is UL approved (file E342315).

Terminal blocks and connectors with Glow Wire plastic are available on request. This material conforms to IEC/EN 60335 directive whose testing instructions are given by the IEC/EN 60695 directive.

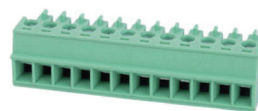

Connectors for the THT soldering process, also called pin-in paste. These connectors can be packed in “Tape and Reel” for the pick and place assembly process.
